WELCOME

The inTEC GROUP was founded in 2016 with one core objective: to help organisations work smarter through technology.

Over the years, we've grown rapidly throughout the UK and Ireland and today we have a fantastic team of more than 100 experienced professionals with advanced skills in Communications, Technology and Solutions.

Our role is to be your trusted advisor. We don't push products, we sell solutions. We don't talk jargon, we listen to your needs. Above all, we help you achieve more by delivering the best guidance, the best technology and the best support.

If you would like advice around your IT, technology or telephony setup, please do not hesitate to reach out.

We offer a **free, no-obligation Technology Review** which is a great starting point.

Visit intecbusiness.co.uk or call **0345 565 1767** to discover more.

Take care, Simon

Simon Howitt
inTEC GROUP CEO

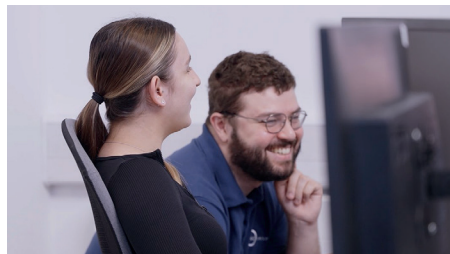

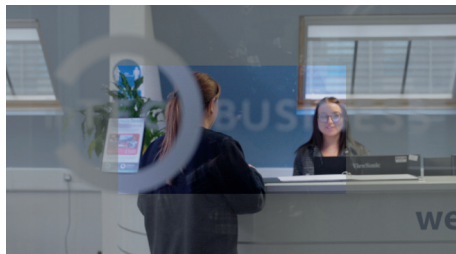

HELLO WE ARE inTEC

We help organisations achieve more by delivering best guidance, best technology & best support.

Specialising in the design, implementation and support of a wide range of Cloud services and business applications including I.T. managed services, I.T. infrastructure support, hosted collaboration and communication solutions, we are an end-to-end independent technology consultancy helping organisations understand and see real value from their technology systems and investments.

We work with our cross-sector clients (including high profile brands such as Porsche, YMCA and Age UK and many independent schools such as Eton College, Harrow School, Winchester College, Ibstock Place School, Lingfield College, Leighton Park School, Magdalen College School, Francis Holland Schools Trust and Wakefield Grammar School) to bring together design, processes and technology, in order to achieve organisational goals and deliver a standout customer experience.

OUR BUSINESS SOLUTIONS

MANAGED SERVICES

Have you outgrown your current tech or IT support provider? Yearning for proactive monitoring, rather than just reactive support? Do you want to make the most out of Microsoft 365?

CYBER SECURITY AUDIT

Have you been a victim of a phishing or ransomware attack? Do you worry about your team accessing your internal systems from different locations? Is your company data backed up properly?

SMARTER WORKING

Is your business growing quickly but your systems are holding you back? Are you using spreadsheets which are becoming cumbersome and inefficient? Want to build an app to streamline your processes?

MOBILE PACKAGES

Are you worried that you are paying too much for your business mobiles? Unsure if you can use your mobile data when travelling and working abroad? Looking to upgrade your business handsets?

CONNECTIVITY

Want ultrafast, gigabit connectivity? Is your broadband connection or wi-fi signal affecting your work? Are you regularly facing interruptions to your IT? Perhaps your old office desktops aren't up to scratch anymore?

UNIFIED COMMS

Would you like to integrate your office phone system, mobile users and Microsoft Teams into one solution? Is your office phone system in need of an upgrade?

PORSCHE

“

Everyone is delighted with the results. The solutions that have been put into our business have been instrumental in us providing better customer service. We are more obtainable, we've got better phone and IT systems, the whole business just works on another level. We are able to deliver a better customer experience.”

Simon Parker | Director at Porsche Centre South Lakes

OUR EDUCATION SOLUTIONS

DIGITAL TRANSFORMATION

Over 15 years of creating successful long-term Digital Transformation strategies for educational organisations.

MANAGED IT SUPPORT SERVICES

Reducing the burden on teachers and school management by managing your schools IT support delivery and enhancing IT governance.

INFRASTRUCTURE & CLOUD SOLUTIONS

A proven track record of delivering optimised technology & infrastructure, electrical and audio visual solutions to schools.

CYBER SECURITY & SAFEGUARDING

Technology and managed services that facilitate learning whilst safeguarding pupils, staff, schools and educational reputations.

IBSTOCK PLACE SCHOOL

“

We found working with inTEC a really seamless experience and we've been able to do a lot in a really short space of time”

Robert Gorrie | Director of Innovation and Strategic Projects,
Ibstock Place School

WHAT OUR PEOPLE SAY...

Here at inTEC, we've got a great team of people and we are very proud of the positive culture we have developed since the Group was formed.

We put the jigsaw together, together

We keep it simple

Don't worry about it, fix it

Growing is good

It might be difficult, but we always rise to the challenge

We don't compete, we collaborate

We're a BIG small business

We sell by solving problems

We don't start with the solution

Every day is a school day!

WHY CHOOSE inTEC?

WE DRIVE TEAM PRODUCTIVITY

We are dedicated to creating the best environment for your team to triumph. Having the right technology and the right skills is pivotal to success.

YOUR STRATEGIC PARTNER

We will work with you to understand your goals and build and deliver a strategic technology roadmap to enable your organisation to succeed.

OUTSTANDING SUPPORT GUARANTEED

Our team always go above and beyond to deliver an exceptional client experience.

WE ARE A PROUD MICROSOFT GOLD PARTNER!

Gold
Microsoft Partner

We specialise in Modern Workplace and everything that entails, namely Windows 10, Microsoft 365, Azure Virtual Desktop and Microsoft Endpoint Manager. This means that wherever you are on your Microsoft journey, whether that be looking to migrate to the cloud, implement Teams, create custom apps or automate processes, we can help.

Example projects:

Azure app hosting – One of the most common issues facing customers wanting to fully move into the cloud is the existence of one or more business applications, like Sage 50, that don't have cloud equivalent. inTEC have pioneered the utilisation of Azure in such circumstances to give customers seamless access to their 'on-premise only' applications in the cloud thus allowing them to remove their servers and provide employees with a far more user - friendly experience devoid of VPNs!

Teams implementation – Teams usage has accelerated rapidly in recent years but is your organisation making the most of this fantastic tool as we move into the new world of hybrid working? If not, inTEC can help. We have worked with hundreds of organisations to help them maximise their Teams usage. This could be the migration of files into Teams/SharePoint, implementation of automated processes via Power Automate or simply training users to demonstrate that Teams is more than a video conferencing tool!

Security hardening – As organisations rushed to provide remote working solutions to their staff during the Covid pandemic, security often became an afterthought. As a result, cyber-crime has increased dramatically. We work with our clients to analyse their IT estate and provide solutions to help them improve their security proposition utilising Microsoft tools. This includes Multi-Factor Authentication, Conditional Access, Device Management, Data Loss Prevention and Attack Simulation.
