

Paulo Silva

Senior IT Support Engineer
inTEC EDUCATION | St Edmund's School

My typical working day

"Very busy. As I like it!"

I joined inTEC in...

2023

If I was stranded on a desert island, ONE item I would need is...

"A big bag full of vegetable seeds. That way I could grow some food."

Problem solving.

Best bits about my role...

What most interests you about the tech industry?

Maintaining work/life balance

"Copilot and the innovative theme around it."

"Going on long walks."

My pet peeve is...

People lying.

My proudest moment so far...

I define success as...

"The ability to have a roof, comfort and health food. And mostly helping others."

"Classroom Cloud deployment and training users how to use OneDrive and Office apps."

Unknown fact about me!

"I'm a cactus collector."
